- "I can not recommend this game enough! Simply amazing! It is a game you won't find anywhere else. - The people who make this game certainly love creating new things, and that is shown in many ways, like how they see your stats. After level 100, you are never more than 4 hours away from upgrading a skill. - The game world is so big that when you start a new job, it can take you a week to get there, which is really great! - You are so much involved that you will feel that you are part of a family, even though you are alone." - "I love the fact that Elden Ring offers a huge world with many interesting stories. - The emotions that the characters show are well done and that you can get

The game was given to us by the developer. All review codes were provided by the developer. Powered by Battleforge Review: Rise, Tarnished, and be guided by grace to brandish the power of the Elden Ring and become an Elden Lord in the Lands Between. Summary: With only a week to go before the month-long beta test of Everbright's highly anticipated MMORPG, Silverpag0755 gives a review that's surprisingly positive. So what brings good news in the first place? Well, the large scope of the beta certainly plays a part, though the main thing that shines through is how entertaining the game is. The crux of Silverpag0755 is in how it trades gameplay that's very similar to that of WoW for impressive technology. From the levels, to the animations, to the loot, the game's engine and character generation are all designed to make it look and feel much more advanced than games like Neverwinter Nights or The Elder Scrolls Online. Gameplay is a step above what you'd expect for a dungeon crawler. One would expect it to be a pretty linear affair, but the elements of exploration combined with combat and auto-battle make Silverpag0755 more of a sandbox experience. This was a pleasure to play, both because it allows for a bit of strategy and because it's unique in the genre. While not a revolutionary game, Silverpag0755 does an excellent job of shaping your character with your equipment and skills. Seeing how you progress is also improved due to the great amount of development in the beta, which we should assume will be a massive success come
